Reel Abilities Film Festival

By [MARK PERZEL \(/PEOPLE/MARK-PERZEL\)](#)

Cincinnati is one of 9 US cities hosting a week of exceptional, touching, courageous and beautifully made films as the [Reel Abilities Film Festival](http://www.cincyra.org/) begins Saturday night. From March 9 through the 16, at various venues around town, films that share the stories, lives and art of people with disabilities will be shown, all benefitting local organizations that work with, advocate for or provide services to people with disabilities. Organizer [Christa Zielke](#) from [Visionaries + Voices](http://www.visionariesandvoices.com/content/vv-home) and disability advocate [Kathleen Sheil](#) from [Living Arrangements for the Developmentally Disabled](http://www.laddinc.org/) join Mark Perzel to discuss the importance and the quality of the films that are a part of this festival.
